GRAPHICS.
Dr. Carter dentist, South side.

Eld. Lanville will preach at the Bear Creek church next Sunday at 11 a. m.

There have been 100 additions to the Christian church of this city during Elder Updyke's meetings.

Rev. Canfield will be at Beaver on next Sunday, Nov. 9. There will be no service in Trinity church.

Mr. R. M. Campbell, of Edina was in Kirkville Wednesday, and purchased the residence property of Mrs. M. Abbott.

The machinery for the new electric light plant is on the ground, and an expert will be in the city to-day to begin wiring the buildings.

The Grand Rapids Daily Democrat, speaking of Mr. and Mrs. Scott, says: "They are both excellent readers, devoid of staidness and natural to a degree rarely found in professionals."

"The best readers that ever visited St. Joseph," is what the St. Joseph Daily Gazette says of Mr. and Mrs. Scott. They will be at Normal Camp Friday night Nov. 14.

The election passed off quietly, and so far as we have been able to learn, there was no jar or discord at any of the precincts to disturb the hard earnest work that was done by both parties.

Mr. S. M. Pickler was called to St. Louis, Monday night by telegraph, to meet the Missouri Pacific Railroad people, and confer with them in regard to filing a contract for a half million feet for them.

Mr. W. H. Williams, of Polk township brought to this office, Monday a turnip that weighs 8 pounds, and measures 2 feet and 9 inches in circumference. If anyone can turn up a bigger turnip we would be glad to note the fact.

There will be a social given by the Y. P. S. C. E. of the Cumberland Presbyterian church, at the residence of Mr. and Mrs. R. M. Ringo Friday evening the 7th inst. to which all the members of the other societies of the city and friends generally are cordially invited.

W. M. Callison, of West Salt River township, brought a load of oats to Kirkville that weighed up 78 bushels. He sold them at 40 cents a bushel, getting for the load \$31.20. When we contrast such sales with the sales of last year at this time, we think the farmers have some cause to be a little jubilant. Mr. Callison states that his land sowed to oats, netted him \$8 per acre above all expenses.

A short time ago the GRAPHIC published an item taken from the Queen City Transcript, which stated that Mr. Hugh Alexander, who has been afflicted with rheumatism for twenty years and had not walked a step during that time, had been almost cured by prayer. An investigation reveals that such is not the case, and that instead of being cured he has in addition to his other afflictions, lost his mind. It seems that there had been a slight improvement, and when baptized he expected a sudden and miraculous restoration to perfect health, and that he would be able to walk out of the water unaided. The failure to be thus restored has so preyed upon his mind that he has become insane, and his physical condition has become worse than before.

Obituary.

Frank Perry Andrews was born at Caroline, Tompkins county, New York. His parents removed to this state in the year 1897, where he grew to manhood. He was married to Miss Anna Rogers of this county, July 12, 1879; they moved to California shortly after their marriage where they remained for about two years and then returned to this county where they have since resided. He died Oct. 27, 1890, aged 31 years, 11 months and 18 days. He leaves a wife and two children, father, mother and one sister to mourn. He was a noble, self sacrificing husband, a dutiful son, a kind and loving brother. As a neighbor he was highly esteemed by all, as an honest, honorable upright citizen. In his death, not only the bereaved family but the whole community suffer an irreparable loss.

DIED.

ANDREWS—At Troy Mills, Oct. 27, Frank P. only son of B. C. and Sarah A. Andrews, aged 31 yrs. 11 months and 18 days.

BEGOLE—Oct. 21, of whooping cough, Frankie, infant son of Mr. and Mrs. D. W. Begole, Gibbs, Mo. Little Frankie with a twin brother was born last March.

Our Savior said "Suffer them to come unto me, for of such is the kingdom of heaven." J. T. K.

INGHAM—Mrs. Livina Ingham died in this city Friday, October 24, after an illness of one month, aged 56 years. She was widely known as a cancer doctor and during her professional career made many wonderful cures. The remains were taken to Mt. Sterling, Illinois, Saturday, October 25, and interred by the side of her husband. She was a member of the Christian church.

WOOD—On the 4th inst. of congestion of stomach and bowels, William, second son of Edward and Jane Wood, after an illness of but one week.

Mr. Wood was born in Rainum county, Canada, Feb. 7, 1852, and hence was 38 years, 8 months and 23 days old when called from earth. With the family he emigrated from Canada to Iowa in 1857, and to this state in 1873, since which date he has resided but a few miles southeast of this city. He was united in marriage to Miss Sarah E. Timberly, April 4th, 1880, who with their three surviving children are in deepest grief. It is a heavy stroke to his aged parents, Mr. Wood stood high in the estimation of all who knew him as a man of unblemished integrity, and good management was bearing good fruitage in his success as a farmer. His characteristic kindness as a friend and neighbor will cause a painful vacancy in his community. As a son, brother, husband and father, he was an honor to noble manhood, filling his mission with a high degree of helpfulness and comfort to all those thus related to him. While yet entirely rational he assured loved ones at home of his preparation for a blissful home in heaven, earnestly and lovingly exhorting them to meet him there. Said Jesus "Him that cometh unto me, I will in no wise cast out."

His only expressed regret was in leaving his dear companion, little children and aged parents to struggle in this life without his presence to render the wanted aid and comfort.

DEFECTIVE EYES

And the adaption of Spectacles and Eye-glasses. The Doctor has had 15 years experience.

SPECTACLES.

As errors of refraction of the eye are daily assuming more importance and engaging more and more attention of our most able and scientific oculists, Dr. Lewin has made the adaption of Spectacles a special study. Certain forms of eye troubles which were formerly looked upon as diseases of the inner covering of the eye are to-day relieved by a scientific test of the eye, and by using such glasses to correct the errors of refraction and accommodation as the examination will approve. Special attention given to

Eyes of Different Focuses.

The Doctor corrects the most difficult cases of Hypermetropia, Myopia, Presbyopia, astigmatism, compound and complex Astigmatism, Asthenopia, Diplopia, insufficient accommodation power, Cross sights, etc.
